Fort Worth, TX 76104

11/5/90

Dear Jim,

How modest, or is it timid you became after you grew up. When you were a kid you had no reluctance in writing me and taking my time but now that you are a man you don't even let me know that you have published "The definitive book on the Kennedy assassination." "The" means the only one and does not represent timidity and I know you didn't mean Bobby Kennedy.

My memory is not as good as it was. I don't remember your call of earlier this year and I had no recollection of your having written me years ago when I was told you'd published this book. So I checked my records and can't find copies of some that I should have. I'll appreciate it if you will be kind enough to provide copies of what I do not have. All of my materials will be a public archive at a local college and now that you have published I would like them to include what is missing here. Also any records you made of phone conversations.

When you first wrote me I was experiencing the first effects of the several venous thrombooses I've had and for which I was that year hospitalized for the first time. So, I may have misfiled some. And for the most part my wife handled correspondence relating to book orders. We found a few letters in her files. We have found only one letter I wrote you and I understand you refer to others. It is dated June 1, 1975. Of your letters to me I have those of 3/31, 4/15 and 11/19/75. I see I also have mine of 4/22/75. I also have the copy of the clipping and your note on it of 7/21/76, which I think you wrote on it. (Quite a story for one so young!) And I do have your letter of this May.

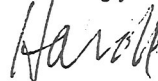

From this I see I have a recent address so I'll send this there. I also see that you have your own businesses. You can't be much over 30 so congratulations are in order for the fine start in life you seem to be making.

Because I have no recollection of your phone conversation of earlier this year I do not recall whether we went into what I'd done after our last previous contact. I filed many FOIA suits and as a result got about a third of a million pages of previously withheld records, mostly from the FBI and including those of the Dallas office.

Please do not take my lack of recollection as a putdown. It isn't. I've gotten many thousands of letters from strangers and an appreciable percentage of them from young people, college age and younger. This and the accumulation of years, now almost 78, account for my lack of recollection.

Thanks in advance for any you may send.

Sincerely,

Harold Weisberg
